## What a Difference a Century Makes

A little over one hundred years ago, things were very different. Here are some statistics for the year 1906. ✓The average life expectancy was 47 years. ✓Only 14% of the homes had a bathtub and only 8% of the homes had a telephone. ✓There were only 8,000 cars and only 144 miles of paved road. The maximum speed limit in most cities was 10 mph. ✓The average wage was 22 cents per hour, and the average worker made between \$200 and \$400 per year. Sugar cost 4¢ a pound, eggs were 14¢ a dozen, and coffee was 15¢ a pound. ✓Most women only washed their hair once a month, and used borax or egg yolks for shampoo. ✓The five leading causes of death were: 1) Pneumonia and influenza, 2) Tuberculosis, 3) Diarrhea, 4) Heart diseases, and 5) Stroke. ✓There was no Mother's Day or Father's Day. ✓Two out of every 10 adults couldn't read or write. Only 6% of all Americans had graduated from high school. ✓The tallest structure in the world was the Eiffel Tower. ✓More than 95% of all births took place at home. ✓There were about 230 reported murders in the entire U.S. A. *It's hard to imagine what it may be like in another 100 years!*

### POINTS TO PONDER

*A day of worry is more exhausting than a week of work.*

Faith is seeing light with your heart when all you see with your eyes is blackness.

*Count that day lost when the descending sun views from thy hand no worthy action done.*

A Sunday School teacher was telling her class the story of the Good Samaritan. She asked the class, "if you saw a person lying on the roadside, all wounded and bleeding what would you do?" A thoughtful little girl broke the hushed silence, "I think I'd throw up."
